

# **Installing VEGA**

## Installation requirements

The VEGA application is an AutoCAD add-in, therefore a pre-installation of AutoCAD is mandatory. Compatible with AutoCAD versions 2020 and higher. VEGA runs on Microsoft<sup>®</sup> Windows<sup>®</sup>.

#### How to install

- 1. Close all open AutoCAD.
- 2. Run the EXE file associated with your AutoCAD version.
- 3. Choose the 'Typical' option (recommended).

4. Follow the instructions in the installation window until the end.

## Troubleshooting

For proper installation, it is recommended to follow these steps before installation-

- Turn User Account Control (UAC) off in Windows 10 and later:
  - Type UAC in the search field on your taskbar. (If the search field isn't visible, right-click the Start button and choose Search).
  - Click Change User Account Control settings in the search results.
  - Turn UAC off, drag the slider down to Never notify and click OK.
  - Reboot your computer for the change to take effect.

- When running the EXE file, a "Windows protected your PC" warning shows up-
  - Click on the 'More info' link that is displayed beneath the warning message.

- Click on the 'Run anyway' button to bypass the warning and continue using the app.
